

List of Materials for Paul Jackson's Presentation

Everyone will need TWO squares of paper, of equal size, but different colours or patterns. Regular origami paper, 6in or 15cm square, is good, as is coloured copy paper, gift wrap paper ...or whatever paper is to hand, cut to 6in or 15cm square. If the only paper to hand is white copy paper, that's OK too, just less decorative. A needle pre-threaded with 12ins (30cms) of thread (choose a colour) would be useful, but is not essential.
